

SWAAGAT Labour Services Selection Guide

Document Type: Service Discovery Guide

Department: Directorate of Labour

Status: Published — Department Verified and Approved for Chatbot Use

Purpose: Help users identify the most relevant labour-related service before asking about documents, fees, CAF, processing time, or application status.

1. Purpose of This Guide

This guide helps the SWAAGAT chatbot identify the labour-related service a user may need.

Use this guide when the user:

- Does not know the exact service name.
- Describes their business or employment situation.
- Asks which labour registration or licence applies.
- Is confused between principal-employer registration and contractor licence.
- Wants a new registration, amendment, renewal, or return filing.
- Mentions contract labour, interstate migrant workers, construction workers, plantation workers, motor transport workers, or Beedi and Cigar workers.

This guide should only help shortlist or identify services.

After a service is identified, the chatbot must use the service-specific generated knowledge for:

- CAF requirement
- Required documents
- Form questions
- Fees
- Approval flow
- Processing time
- Renewal rules
- Certificate information

The chatbot must use live application data for:

- The user's application status
- Payment status
- Current approval stage
- Uploaded or missing documents
- Certificate availability

- Actual expiry date
-

2. Important Recommendation Rules

1. Do not recommend a service only because the user mentions “labourers” or “workers.”
 2. First identify the user’s role:
 - Principal employer
 - Contractor
 - Establishment owner
 - Plantation employer
 - Motor transport establishment
 - Beedi or Cigar establishment
 - Construction establishment
 3. Distinguish the application purpose:
 - New registration
 - New licence
 - Amendment
 - Renewal
 - Return filing
 4. Distinguish the worker category:
 - Contract labour
 - Interstate migrant workers
 - Building and construction workers
 - Plantation labour
 - Motor transport workers
 - Beedi and Cigar workers
 5. Do not invent legal thresholds, worker-count requirements, eligibility conditions, fees, documents, or timelines.
 6. When information is insufficient, ask one or two targeted clarification questions instead of selecting a service immediately.
 7. When two or more services may apply, show the possible services with a short explanation and ask the user to select one.
 8. Do not treat an amendment service as a new registration.
 9. Do not treat principal-employer registration as a contractor licence.
 10. Do not recommend a renewal option unless the relevant renewal service or renewal configuration is verified.
-

3. First Questions to Ask

When the user only says:

I have labourers. Which service should I apply for?

Ask:

1. Are you the principal employer engaging workers, or are you the contractor supplying or employing the workers?
2. Are the workers contract labour, interstate migrant workers, construction workers, plantation workers, motor transport workers, or Beedi and Cigar workers?
3. Do you need a new registration, a licence, an amendment, or renewal?
4. Do you already have an existing registration or licence?

Do not recommend a final service until the relevant answers are clear.

Do not decide only from the word “labour.”

7. Sample Chatbot Conversations

Example 1 — User only mentions labourers

User:

I have labourers. Which service should I apply for?

Assistant:

The correct service depends on how the workers are engaged. Are you the principal employer hiring workers through a contractor, or are you the contractor supplying the workers? Also, are any workers from another state?

Example 2 — Principal employer with contract labour

User:

My company hires workers through a contractor.

Assistant:

You may need **Principal Employer Registration Under The Contract Labour Act — Service ID 16**. Before confirming, are any of the workers interstate migrant workers, and is this a new registration or an amendment to an existing one?

Example 3 — Contractor

User:

I supply workers to different companies.

Assistant:

You may need **Contractor Licence for Contract Labour and ISMW — Service ID 37**. Are you applying for a new contractor licence, and do you employ any interstate migrant workers?

Example 4 — Interstate migrant workers

User:

We hire workers from another state through a contractor.

Assistant:

Two services may be relevant depending on your role:

1. **Principal Employer Registration Under The ISMW Act — Service ID 19**, when you are the principal employer.
2. **Contractor Licence for Contract Labour and ISMW — Service ID 37**, when you are the contractor.

Are you the principal employer or the contractor?

Example 5 — Existing registration change

User:

I need to change details in my Contract Labour principal-employer registration.

Assistant:

The relevant service appears to be **Amendment of Principal employer registration under The Contract Labour Act — Service ID 29**. Please confirm that you already hold the registration and want to modify its existing details.

Example 6 — Construction workers

User:

We have labourers at our construction site.

Assistant:

You may need **Principal Employer Registration Under Building & Other Construction Workers Act — Service ID 23**, but I need to confirm your role. Are you the principal employer or a labour contractor, and is this a new registration?

Example 7 — Return filing

User:

I want to file my labour return.

Assistant:

You may need **Combined Return — Service ID 38**. Which labour registration or licence do you currently hold, and which reporting period does the return cover?
