

SWAAGAT Land, Water and Infrastructure Services Selection Guide

Document Status: Published — Department Verified and Approved for Chatbot Use

Document Type: Service Discovery Guide

Purpose: Help users identify the correct SWAAGAT service when their query concerns land allotment, land-use change, water-resource services, drinking water, sanitation, or related infrastructure requirements.

This guide covers four relevant services currently listed in SWAAGAT across the Revenue Department, TIDC, PWD Water Resource, and PWD Drinking Water & Sanitation.

1. Purpose of This Guide

Users may describe their requirement in broad terms such as:

- I need land for my industry.
- I want to change the use of my land.
- I need a water connection.
- I need water for my industrial unit.
- I have a water-resource-related requirement. □ I need drinking water or sanitation service.

These statements are not sufficient to recommend one service immediately.

The chatbot should first determine:

- Whether the user needs land to be allotted or already owns land.
 - Whether the existing land-use category needs to be changed.
 - Whether the requirement concerns water resources, drinking water, sanitation, or an urban water connection.
 - Whether the proposed service is handled directly in SWAAGAT or redirects to a thirdparty portal.
 - Whether the user is applying for a new request or following up on an existing application.
-

2. Services Covered

1. **Apply for PWD Water Resource Service**
Service ID: 48
Department: PWD (Water Resource)
2. **Land Allotment**
Service ID: 64
Department: Tripura Industrial Development Corporation Ltd.
3. **Application for PWD DWS (Drinking Water & Sanitation) Service**
Service ID: 79
Department: PWD (DWS)
4. **Apply for Change in Land Use**
Service ID: 92
Department: Revenue Department

Related services from other discovery guides may include:

- Apply for Water Connection (Urban)
- Application for Sewerage Connection
- Building plan or construction permission
- Factory plan approval
- Electrical line clearance
- Land-related services available outside SWAAGAT

3. Quick Service Selection Guide

The user needs land for setting up an industrial unit

Consider:

Land Allotment — Service ID 64

Before recommending, confirm:

- The user is asking for allotment of land.
 - The user does not already own the land concerned.
 - The requirement is related to an industrial or eligible project.
 - The user is not merely asking to change the permitted use of existing land.
-

The user already has land but wants to use it for another purpose

Consider:

Apply for Change in Land Use — Service ID 92

Before recommending, confirm:

- The user already owns or lawfully controls the land.
 - The request concerns changing the recorded or permitted use of that land.
 - The user is not requesting allotment of new land.
 - The requirement is not simply building permission or factory-plan approval.
-

The user needs a water-resource-related departmental service

Consider:

Apply for PWD Water Resource Service — Service ID 48

Before recommending, clarify the exact nature of the requirement.

“Water resource” may not mean the same thing as:

- Drinking-water connection
- Urban household water connection
- Sewerage connection
- Sanitation service
- Industrial water supply

The exact service coverage requires department verification.

The user needs drinking-water or sanitation-related assistance

Consider:

Application for PWD DWS Service — Service ID 79

Before recommending, confirm:

- The requirement concerns drinking water or sanitation.
 - The user is not asking for irrigation or another water-resource matter.
 - The user is not specifically seeking an urban municipal water connection.
 - The service is available for the user’s location and applicant category.
-

4. Important Distinctions

Land Allotment vs Change in Land Use

Land Allotment

The user is seeking land to be allotted for a proposed project or activity.

Change in Land Use

The user already has land but wants permission or approval to use it for a purpose different from its existing classification or permitted use.

Clarification question

“Do you need new land to be allotted, or do you already have land whose use needs to be changed?”

Water Resource vs Drinking Water and Sanitation

PWD Water Resource

This may concern waterresource infrastructure or another matter handled by the Water Resource department.

PWD Drinking Water and Sanitation

This concerns services handled by the Drinking Water and Sanitation department.

Clarification question

“Is your requirement related to drinking water or sanitation, or is it a broader water-resource or infrastructure matter?”

PWD DWS vs Urban Water Connection

The SWAAGAT catalog also contains a separate Urban Development service:

Apply for Water Connection (Urban)

The chatbot should not recommend PWD DWS merely because the user says “water connection.” First ask:

- Is the property in an urban municipal area?
 - Is the user seeking a regular urban water connection?
 - Is the requirement related to an industrial project?
 - Is the request about drinking water, sanitation, or a broader water-resource matter?
-

Land-Related Service vs Construction Permission

Changing the use of land does not automatically mean that construction permission, buildingplan approval, factory-plan approval, or other departmental clearance has been granted.

The chatbot must not tell the user that one land-related approval replaces all other required approvals.

5. Service Discovery Profile: Land Allotment

Official Service Name

Land Allotment

Service ID

64

Department

Tripura Industrial Development Corporation Ltd.

Common Names and User Terms

- Industrial land allotment
- Land for setting up industry
- TIDC land
- Industrial plot
- Land for factory
- Business land allotment
- Plot allotment for industry

Who Should Consider This Service?

A person or enterprise seeking allotment of land for an eligible industrial, commercial, or project-related purpose administered by the concerned corporation.

The exact eligibility, land availability, applicant category, project requirements, and allotment rules require departmental verification.

Consider This Service When

- The user needs new land or an industrial plot.
- The user wants to establish an industrial unit and does not already possess suitable land.
- The user specifically asks about TIDC land or industrial land allotment.
- The request concerns allocation of land rather than changing the use of existing land.

Do Not Recommend This Service When

- The user already owns the land and only needs a change in its permitted use.
- The user only needs construction permission.
- The user only needs a building-plan approval.
- The user only needs factory registration or a factory licence.
- The user is asking about buying or selling private land.
- The user is asking about mutation, land records, ownership disputes, or registration of a sale deed.
- The available information does not establish that the project is eligible for TIDC land allotment.

Clarification Questions

1. Do you need new land to be allotted, or do you already own the land?
2. Is the land required for an industrial or business project?
3. Have you identified a TIDC industrial area or estate?
4. What type of unit or project do you propose to establish?
5. Are you asking about allotment, lease, transfer, or change of use?
6. Do you already have an existing allotment or application?

Related or Easily Confused Services

- Apply for Change in Land Use
- New Factory Plan Drawing Approval
- Application for Construction Permit Approval
- Electrical Line Clearance for Building Plan Approval
- Apply for PWD Water Resource Service

Common User Phrases

- I need land for my factory.
- Mujhe industry lagane ke liye plot chahiye.
- How can I get industrial land?
- I want a plot in an industrial estate.
- TIDC land kaise apply kare?
- I am starting a new manufacturing unit and need land.
- Which service is used for industrial plot allotment?

Recommendation Restrictions

- Do not promise that land is available.
 - Do not promise allotment or approval.
 - Do not invent land rates, lease periods, plot sizes, or eligibility requirements.
 - Do not describe land allotment as land ownership.
 - Do not claim that other departmental approvals are unnecessary after allotment.
 - Use the service-specific RAG sections for documents, fees, CAF requirements, and processing information.
-

6. Service Discovery Profile: Change in Land Use

Official Service Name

Apply for Change in Land Use

Service ID

92

Department

Revenue Department

Common Names and User Terms

- Land-use conversion
- Change of land classification
- Convert land use
- Agricultural to commercial land
- Agricultural to industrial land
- Land conversion permission
- CLU □ Change land category

Who Should Consider This Service?

A user who already has land and wants to seek approval for changing its existing or permitted use.

Exact categories, permitted conversions, supporting records, jurisdiction, restrictions, and approval conditions require verification from the Revenue Department.

Consider This Service When

- The user already owns or lawfully controls the land.
- The proposed project requires a different land-use category.
- The user explicitly asks about changing or converting land use.
- The current land classification may not permit the proposed activity.

Do Not Recommend This Service When

- The user needs new land to be allotted.
- The user only needs a building permit.
- The user only needs factory-plan approval.
- The user is asking about mutation or correction of ownership records.
- The user is asking about sale, purchase, lease registration, or a title dispute.
- The user is asking only for an occupancy certificate.
- The chatbot cannot determine whether a change in land use is actually required.

Clarification Questions

1. Do you already own or control the land?
2. What is the current recorded use of the land?
3. What activity do you plan to carry out on the land?
4. Is the land proposed for industrial, commercial, residential, or another use?
5. Are you asking for change in land use or only construction permission?
6. Is the land located within an urban municipal area?
7. Have you already received any land allotment or development approval?

Related or Easily Confused Services

- Land Allotment
- Construction Permit Approval
- Permission for Alteration and Addition or Revision of Building Plans
- New Factory Plan Drawing Approval
- Application for Occupancy Certificate
- Trade Licence

Common User Phrases

- I want to convert agricultural land for industry.
- Land ka use industrial karna hai.
- I already have land but want to open a factory.
- Do I need CLU?
- How can I change the land category?
- My land is residential, but I want to use it commercially.
- Which service is used for land conversion?

Recommendation Restrictions

- Do not state that change in land use is always required for every business.
- Do not decide the existing land classification without official records.

- Do not guarantee that the proposed conversion is legally permissible.
 - Do not tell the user that change-in-land-use approval replaces construction or departmental approvals.
 - Do not invent conversion fees, timelines, or land categories.
-

7. Service Discovery Profile: PWD Water Resource Service

Official Service Name

Apply for PWD Water Resource Service

Service ID

48

Department

PWD (Water Resource)

Service Mode

Third-party service

Common Names and User Terms

- Water Resource Department service
- PWD Water Resource
- Water-resource permission
- Water-resource approval
- Irrigation-related service
- Water infrastructure service
- Water source approval

Who Should Consider This Service?

A user whose requirement is handled by PWD Water Resource rather than the Drinking Water and Sanitation department or an urban municipal authority.

The current catalog name is broad. The exact services, permissions, applicant categories, and use cases available through the third-party portal require department verification.

Consider This Service When

- The user specifically refers to PWD Water Resource.
- The requirement concerns a water-resource or related infrastructure matter.
- The user has been directed by another authority to obtain approval or service from PWD Water Resource.
- The user's requirement is not simply a drinking-water connection or sanitation service.

Do Not Recommend This Service When

- The user only says "I need water" without explaining the purpose.
- The user requires an urban municipal water connection.
- The request clearly concerns drinking water or sanitation.
- The request concerns sewerage connection.
- The actual department responsible has not been identified.
- The user's requirement falls under a service not represented by this broad catalog entry.

Clarification Questions

1. What exact water-related service or permission do you require?
2. Is the requirement for drinking water, irrigation, industrial use, drainage, or another purpose?
3. Is the property located in an urban or rural area?
4. Have you been directed to PWD Water Resource by another department?
5. Is this connected to a factory, construction project, land development, or another activity?
6. Do you need a new connection, departmental permission, clearance, or information?
7. Are you already registered on the linked third-party portal?

Related or Easily Confused Services

- Application for PWD DWS Service
- Apply for Water Connection (Urban)
- Application for Sewerage Connection
- Land Allotment
- Change in Land Use □ Construction Permit Approval

Common User Phrases

- I need permission from Water Resource Department.
- PWD Water Resource ka service kaunsa hai?

- I need water for my industrial project.
- Water-resource approval kaise milega?
- Which department handles my water requirement?
- I was told to apply through PWD Water Resource.
- I need a water-related clearance.

Recommendation Restrictions

- Do not assume that this service covers every water-related requirement.
 - Do not describe it as a drinking-water connection unless verified.
 - Do not describe it as an irrigation service unless verified.
 - Clearly inform the user when the service redirects to a third-party portal.
 - Ask for the exact purpose before recommending.
 - Do not invent departmental permissions or technical requirements.
-

8. Service Discovery Profile: PWD Drinking Water and Sanitation Service

Official Service Name

Application for PWD DWS (Drinking Water & Sanitation) Service

Service ID

79

Department

PWD (DWS) **Service**

Mode

Third-party service

Common Names and User Terms

- PWD DWS

- Drinking-water service
- Sanitation service
- Water and sanitation department
- DWS connection
- Drinking-water application
- Rural drinking-water service

Who Should Consider This Service?

A user whose request concerns a service handled by the Drinking Water and Sanitation department.

The exact services available through the linked third-party system, geographic coverage, applicant categories, and connection types require departmental verification.

Consider This Service When

- The user specifically asks for a Drinking Water and Sanitation department service.
- The requirement concerns drinking water or sanitation.
- The user has been instructed to use the PWD DWS portal.
- The requirement does not clearly belong to an urban municipal water-connection service.

Do Not Recommend This Service When

- The user asks specifically for an urban municipal water connection.
- The requirement concerns sewerage and the relevant UDD sewerage service applies.
- The request concerns irrigation or another water-resource function.
- The user asks only about industrial water allocation without identifying the responsible department.
- The property location and service jurisdiction remain unclear.

Clarification Questions

1. Is your request for drinking water, sanitation, or another service?
2. Is the property in an urban municipal area, rural area, industrial area, or another jurisdiction?
3. Do you need a new connection, modification, complaint resolution, or another service?
4. Is this for a household, business, industrial unit, or public institution?
5. Have you been referred to PWD DWS?
6. Are you looking for a water connection or sewerage connection?
7. Do you already have an application on the third-party portal?

Related or Easily Confused Services

- Apply for Water Connection (Urban)
- Application for Sewerage Connection
- Apply for PWD Water Resource Service
- Construction Permit Approval
- Land Allotment

Common User Phrases

- I need a drinking-water connection.
- DWS ka connection kaise milega?
- I need sanitation service.
- Which service handles drinking water? □ My business needs a water connection.
- PWD DWS application kahan se kare? □ I need water and sanitation support.

Recommendation Restrictions

- Do not recommend this service solely because the user says “water connection.” □
Confirm whether the property is under urban municipal jurisdiction.
 - Do not confuse drinking water with water-resource or irrigation requirements.
 - Inform the user that the service may continue on a third-party portal.
 - Do not invent availability, connection charges, documents, or timelines.
-

9. General Clarification Flow

When a user says:

I need land and water for my business.

The chatbot should not immediately recommend multiple services as mandatory.

It should ask:

1. Do you already own the land, or do you need new land to be allotted?
2. What business or industrial activity are you planning?
3. Do you need to change the existing use of the land?
4. Is your water requirement for drinking water, industrial use, sanitation, irrigation, or an urban water connection?
5. Where is the proposed unit located?
6. Have any departments already advised you to obtain a specific approval?

After receiving answers, the chatbot may present possible services with clear reasons.

10. Recommended Chatbot Response Pattern

When one service is clearly applicable:

Based on your description, **Land Allotment — Service ID 64** may be the relevant SWAAGAT service because you are seeking new land for an industrial project. Before confirming, please tell me whether you have already identified a TIDC industrial area and whether you currently own any suitable land.

When more than one service may apply:

Your requirement could involve more than one service. First, please confirm whether you need new land to be allotted or already own land whose use must be changed. Also tell me whether the water requirement is for drinking water, industrial use, sanitation, or an urban connection. When verified guidance is insufficient:

I found related SWAAGAT services, but the exact service cannot be confirmed from the available information. Please describe the land status, project type, location, and exact water requirement.

11. Example User Conversations

Example 1 — Industrial Land

User: I want to start a factory but I do not have land.

Assistant: Are you seeking an industrial plot to be allotted through TIDC, or are you planning to purchase private land?

User: I need an industrial plot through the government.

Assistant: **Land Allotment — Service ID 64** may be relevant. The exact eligibility, plot availability, and allotment conditions must be checked from the service details and the concerned authority.

Example 2 — Existing Land

User: I own agricultural land and want to set up an industrial unit.

Assistant: You may need to check whether a **Change in Land Use — Service ID 92** is required. Do you know the current recorded land category, and have you obtained any construction or factory-plan approval?

Example 3 — Unclear Water Requirement

User: I need a water connection for my business.

Assistant: Is the property in an urban municipal area? Also, is this a normal drinking-water connection, an industrial water requirement, a sanitation service, or a broader Water Resource department matter?

Example 4 — Urban Water

User: My shop is in a municipal area and I need a normal water connection.

Assistant: The Urban Development service **Apply for Water Connection (Urban)** may be more relevant than PWD Water Resource or PWD DWS. I can help you check its service details.

Example 5 — Department Referral

User: Another department told me to apply through PWD Water Resource.

Assistant: **Apply for PWD Water Resource Service — Service ID 48** may be relevant. What exact approval or water-related service were you asked to obtain?

12. AI Answer Rules

- Do not recommend a service based on one keyword alone.
- Ask whether the user needs new land or already has land.
- Distinguish land allotment from change in land use.
- Distinguish water resource, drinking water, sanitation, urban water, and sewerage services.
- Do not invent eligibility requirements.
- Do not invent land rates, water charges, documents, fees, or processing times.
- Do not promise land allotment or departmental approval.
- Do not claim that one approval replaces other statutory approvals.
- Inform users when a service redirects to a third-party portal.
- Use generated service knowledge for CAF requirements, documents, fees, approval flow, and processing targets. □ Use live application data for the user's actual status, payment, or application progress. □ Ask a clarification question when the responsible department is uncertain.
- Never recommend every related service as mandatory.
- Present shortlisted services as possibilities until required details are confirmed.
