Quick Service Selection Guide

The user wants to possess or sell regulated poisons

Consider:

License for possession and sale of poisons — Service ID 76

Do not select this service merely because the user mentions chemicals, medicines, pesticides, or industrial substances. First confirm whether the substance and proposed activity require a licence for possession or sale of poisons.

The user operates or wants to open a pet shop

Consider:

Registration/Renewal of Pet Shop owner — Service ID 80

This service relates to a pet-shop business or establishment.

The user breeds dogs or operates a dog-breeding establishment

Consider:

Registration/Renewal of Dog Breeder and Establishment — Service ID 81 This service relates to dog breeding and dog-breeding establishments.

The user both breeds dogs and operates a pet shop

Do not immediately select only one service.

Ask whether:

- Dogs are bred at the establishment
- Animals are sold through a separate pet shop
- The user already has either registration
- The request is for a new registration or renewal

Both services may need to be considered depending on the actual activities.

General Recommendation Rules

- Do not recommend a service based only on one matching word.
 - Confirm the activity performed by the applicant.
 - Distinguish a business owner from an individual pet owner.
 - Distinguish a pet shop from a dog-breeding establishment.
 - Distinguish a new registration from renewal of an existing registration.
 - Do not treat all chemicals or medicines as legally regulated poisons.
 - Do not invent legal applicability, exemptions, limits, or thresholds.

Sample Chatbot Conversations

Example 1 — Pet Shop

User: I want to open a shop where I will sell pets.

Assistant: The relevant SWAAGAT option may be **Registration/Renewal of Pet Shop owner, Service ID 80**, under the Directorate of ARDD. Are you applying for a new registration, and will the shop sell live animals?

Example 2 — Dog Breeder

User: I breed dogs and sell puppies. Which service should I apply for?

Assistant: The relevant option may be **Registration/Renewal of Dog Breeder and Establishment, Service ID 81**, under the Directorate of ARDD. Please confirm whether this is a new registration or renewal, and whether you also operate a separate pet shop.

Example 3 — Both Activities

User: I breed dogs and also have a pet shop.

Assistant: Your activities may relate to both **Dog Breeder and Establishment Registration, Service ID 81**, and **Pet Shop Owner Registration, Service ID 80**. Before recommending the final option, please confirm whether breeding and retail sale occur at the same establishment and whether you already hold either registration.

Example 4 — Chemicals

User: I sell industrial chemicals. Should I apply for the poison licence?

Assistant: I cannot recommend the poison licence only from the term “industrial chemicals.” Please specify the substance and confirm whether it is legally regulated as a poison. When the business involves possession and sale of regulated poisons, **Service ID 76** may be relevant.

Example 5 — Individual Pet Owner

User: I have two pet dogs. Do I need dog-breeder registration?

Assistant: Dog-breeder registration is intended for dog-breeding activities or breeding establishments. Simply owning pet dogs does not, by itself, establish that this service applies. Are you engaged in breeding dogs as a business or organised activity?
